Clark Logic Acquires Kandler Tool Company, Expands Industrial Capabilities

PORTAGE, MI- Clark Logic has acquired Kandler Tool Company, a respected full-service machinery moving and rigging company based in Kalamazoo, Michigan. This strategic acquisition enhances Clark Logic’s expanding industrial service capabilities and reinforces its ongoing commitment to investing in the region.

Founded in 1975, Kandler Tool Company focuses on heavy machinery transportation, offering disassembly, reassembly, installation, and relocation services for both individual machines and entire industrial plants. Following the acquisition, the company will operate under the new name Kandler Tool Services.

“Kandler Tool Company has been a trusted name in heavy equipment moving and has long supported complex machinery moves throughout Southwest Michigan,” said Jamie Clark, President and Owner of Clark Logic. “Kandler’s fleet, deep knowledge of machinery relocation, and commitment to minimizing operational disruption make them an ideal fit for our company’s growth and significantly expands what we can offer our industrial clients. We are proud to add them to the Clark Logic family.”

Clark Logic is a Kalamazoo-based industrial services company that specializes in real estate development, transportation, logistics, warehousing, 3PL & handling, cardboard & paper recycling, semi-trailer & container rental and sales, facility cleaning, and automotive dunnage washing.

With over 7 million square feet of industrial real estate, Clark Logic is one of the region’s most accomplished and recognized industrial developers and landlords. The purchase of Kandler Tool Company follows other recent Clark Logic business acquisitions, including Midwest Realty Group (Portage) and Lindsey Dedicated Services (Kalamazoo) in 2024.
